

## ZOFENIL PLUS®

*Menarini*

In some countries marketed as **Bifrizide®**, **Zantipride®**, **Zofenil Duo®**, **Zoprazide®**

### GENERIC NAME

Zofenopril plus hydrochlorothiazide

### COMPOSITION

Each **film-coated tablet** contains 30 mg of Zofenopril Calcium and 12.5 mg of Hydrochlorothiazide

### INDICATIONS

Treatment of mild to moderate essential hypertension. This fixed dose combination is indicated in patients whose blood pressure is not adequately controlled on Zofenopril or Hydrochlorothiazide alone.

### DOSAGE AND ADMINISTRATION

Zofenil Plus should be used once daily, with or without food, in patients whose blood pressure is not adequately controlled on Zofenopril or Hydrochlorothiazide alone.

Dose titration with the individual components (i.e. Zofenopril and Hydrochlorothiazide) is recommended before changing to the fixed dose combination.

When clinically appropriate direct change from monotherapy to the fixed combination may be considered.

The usual effective dose is one tablet once daily.

### SHELF-LIFE/STORAGE INSTRUCTIONS

Shelf-life: 3 years.

Do not store above 30° C.

### PACKAGE

The film coated tablets are provided in blister packs (PVDC coated PVC/aluminium blister):

Zofenopril 30 mg plus hydrochlorothiazide 12.5 mg:  
28, 56 film coated tablets/pack
